

# TestNG

## TESTNG

*Listeners in TestNG*

## *TestNG: Test Execution Engine*

---

- **Listeners** : Listeners implements the interface in TestNG and report the real time event when Test Starts, Fails, passes etc.
- **ITestListener**: We can use this listener to analyse test methods, perform logging.
- Advantage of Listeners over @BeforeTest, @BeforeMethod, @AfterTest, @AfterMethod etc.

*Will see you in Next Lecture...*

---

*Thank you!*

A close-up photograph of a hand holding a black marker, completing the cursive word 'Thank you!' on a white surface. The hand is positioned on the right side of the frame, with the index and thumb fingers visible, holding the marker. The marker's tip is just finishing the exclamation mark. The background is a plain, light-colored surface.

*See you in next lecture ...*
